

NEED MAINTENANCE TECHNICIANS?!?!

Let IRG help! With over 20 years of nationwide recruiting experience and nearly 1,000 Maintenance Technician-related placements in all manufacturing environments, we can be your trusted resource for finding qualified candidates.

We are pleased to offer two search options that will fit all needs and budgets:

Standard Contingent Search – IRG will partner on your search and a fee is only due after the successful placement of a candidate.

Engagement Fee Search – IRG will charge a discounted fee of only \$10,000 per successful placement regardless of the Maintenance Technician’s hourly rate, roughly a 35% discount over the Contingent Search. A \$2,000 engagement fee is due upon commencement of the search.

Regardless of the search program you choose, each placement is backed by our 90-day guarantee with 30-day net terms so you have the comfort of knowing IRG will guarantee all of our placements.

Finding quality Maintenance Technicians is difficult; don’t go to battle alone.
